

# VESURFACE

## **WE MANUFACTURE & PROVIDE SERVICE FOR :**

***Are you looking for full service fabricator?***

***Would you like a supplier who always deliver on their commitments?***

***Would you like to be partner with manufacturer who deliver on time and on budget ?***

***Look no further than vesurface !!***

Since 2002 our customer service has no hassel, no headache. We've been delivering on that promise from day one. our forming service is unmatched.

**BREWERY TANK ENDS**

**CONE FORMING MACHINE**

**FORMED CYLINDER**

**TUBE FORMING MACHINE**

**SURFACE TREATMENT**

**TUMBLAST MACHINE**

**STEEL OEM COMPONENT**

**LASER CUTTING MACHINE**

## WHAT WE DO

**VESURFACE** India's industry expertise includes engineering, extensive Sheet metal fabrication capabilities, Complex pressure vessel projects. Production capabilities and support services include material sourcing, plate cutting, rolling, forming, straightening, welding and construction, & finishing, & inspection.

We fabricate with materials that include Aluminium plate, stainless steels, high-strength steel, chrome-moly steels, highnickelalloys, manganese, copper, and abrasion resistant steels. Through our experience, knowledge and capabilities we are a full-service manufacturer from concept to installation. We provide services in critical areas as mentioned below:

Design	Documentation
Engineering	Manufacturing
Fabrication	Logistic

At **VESURFACE** we have access to many different sizes of rolls for many different applications. With the smaller rolls we are able to precisely roll thinner materials without marking and with the larger roll are able to roll the thicker, wider and longer parts. Pulling on our experience, we can roll not only full cylinders but also cones and spirals to precise measurements. Pairing plate rolling with our press brake means we can manufacture complex parts that want both sharp bends and rolled sections. We provide Plate Rolling Services for industrial processes in large production runs, supplying Cone, Cylinder, Tubes, Arcs and Multi Radius sections using Metal from 1mm to 10 mm thickness and up to 2 meters in length.

Our commitment to quality-and to you- delivers shorter lead times, and gets you to market faster with a quality product you can trust. All at a competitive price.

At **VESURFACE**, we understand the importance of hitting deadlines, standing by commitments, and honoring our word. We do what we say and stand by our work. We've been serving satisfied customers for over 20 years.

## We're Serving to :

- | Aerospace
- | Agriculture
- | Aircraft
- | Automobile
- | Brewery Industries
- | Chemical Filtering
- | Defence
- | Energy
- | Furniture
- | Food Processing
- | Heat Exchanger
- | Lightning
- | Motor Housing
- | Oil & Gas
- | OEM Manufacturer
- | Petrochemical
- | Water Treatment

## We're Dealing with :

- | Stainless Steel
- | Mild Steel
- | Ceramic
- | Perforated Materials
- | Brass
- | Aluminium
- | Nickel Alloys
- | Inconel Alloys

WORKING WITH VESURFACE CAN SAVE  
YOUR **T**IME, **M**ONEY & **E**NERGY !!!!!!!

- *We have 20 years of Sheet Metal Forming Machine Manufacturing & Forming Service experience.*
- *We manufacture fabrication of the highest quality which eliminates rework, back charges, and costly delays.*
- *we stand by our work, which ensures you will not incur additional fees after the completion of project.*
- *We accommodate your need and offer flexible production scheduling.*
- *Our Experienced “Hands-on” Engineering provides the talent needed to manage complex fabrication projects.*
- *we deliver to the end use if require so you don't have to manage freight logicstics and packing.*
- *We are single source, one-stop shop for your turnaround/ shutdown project requirements, which reduces your vendor management costs.*
- *we meet our quoted delivery times, which enables you to maintain project timeliens while avoiding customer down-time.*
- *we conduct multiple in-process quality checks, which prevents rejection due to quality issues, eliminating rework, project stoppages or delays.*
- *vesurface is strong technical resource saving you the time & cost in obtaining technical information.*
